B.Tech.

(SEM. VI) THEORY EXAMINATION 2013-14

WIRELESS COMMUNICATION

Time : 2 Hours

Total Marks : 50

Note :- Attempt all questions.

1. Attempt any two parts of the following : (7×2=14)
 - (a) Explain practical link budget design using path loss model.
 - (b) What is multi-path fading ? Comment on multi-path shape factor for fading wireless channels.
 - (c) Explain these terms :
 - (i) Reflection
 - (ii) Diffraction
 - (iii) Scattering
 - (iv) Propagation models
2. Attempt any two parts of the following : (6×2=12)
 - (a) What is the difference between DS-SS and FH-SS. What are the fundamentals of equalization ?
 - (b) What is equalizer in communication receiver ? What are equalization techniques used in communication ?
 - (c) Explain the performance of DS-SS in detail.

3. Attempt any two parts of the following : (6×2=12)
- (a) Explain frequency division multiplexing. What is FDMA ?
 - (b) Compare TDMA and SDMA according to various characteristics.
 - (c) Comment on characteristics of speech signal. What is quantisation ?
4. Attempt any two parts of the following : (6×2=12)
- (a) Explain hand off strategies.
 - (b) Comment on improving coverage.
 - (c) What is the capacity in cellular system ?
