

- (c) What are budgeting and budgetary control? Clearly explain the essential elements of budget.

Q5. Attempt any *two* questions from the following: 10x2=20

- (a) From the following informations, calculate the material variances:

Material purchased = 3000 units

Value of material purchased = Rs. 9,000/-

Standard quantity of materials required per ton of output = 30 units

Standard rate of material = Rs. 2.50 per unit

Opening stock of material = Nil

Closing stock of material = 500 units

Output during the period = 80 tonnes.

- (b) What is Standard Costing? How can be Standard Costing considered as a Management Tool?
- (c) Clearly explain the various labour variances.
